

Our Breastfeeding Friendly Policy

This venue welcomes babies to be breastfed in any areas of these premises.

How we make this happen:

We will always provide a warm welcome and staff are trained to support the needs and rights of mothers breastfeeding.

Should another customer or visitor to our premises object to breastfeeding, they should be told that management supports breastfeeding. If the situation cannot be resolved readily, junior staff should refer customers/visitors to senior management.

A copy of this policy should be shared with all new staff members and a copy is displayed on our website. Owner Alanna Lonigro is responsible for distributing and updating this policy annually. And can be made aware of any concerns or if a member of staff feels they need more guidance.

To demonstrate that we are Breastfeeding Friendly, we will:

- display appropriate signage
- make mothers and babies welcome
- be as accessible as possible, offering buggy park downstairs and clean baby-change facilities.
- try to arrange furniture to allow for space to feed comfortably at the table.
- provide a quiet corner with comfy chair with armrests
- Offer table service / carry items over to support breastfeeding mothers
- Free tap water offered to all
